

An aerial photograph of the Northampton Cross industrial site, showing a large white industrial building with a grey roof, surrounded by parking lots and greenery. The image is partially obscured by a blue semi-transparent box containing the project name.

Northampton Cross

Project:
Northampton Cross

Contractor:
A&H Construction Ltd

Architect:
UMC Architects

Value:
£2.5m

Location:
Northampton

Client:
Firethorn Developments

We were delighted to be awarded the cladding envelope package on this prestigious development known as Northampton Cross. Working with developer Firethorn and Contractor A&H Construction Ltd, the site comprises a 250,000 sqft unit and a 104,000 sqft unit.

The site is located directly off Junction 15A of the M1, Northampton Cross is a prime location with immediate and easy access to the motorway and surrounding road network.

We installed Euroclad Elite & Kingspan MR roof and wall cladding systems.
