Project Ocean, Corby

Project:
Project Ocean, Corby

Contractor:
Clegg Food Projects Ltd

Architect:
Cox Freeman

Value:
£1.1m

Location:
Corby

Client:
Jacksons Bakery

We was appointed by Clegg Foods Project to deliver the external cladding package on this fast track bakery in Corby.

Programme was extremely important so the internal bakery fit out could commence as quickly as possible. We used Kingspan KS1000 RW on the roof and Kingspan Ks1000 MR Longspan panels laid vertically on the walls around the main bakery production areas which provide a fastrack install allowing the internal works to get started very early on this project.
